PROFESSIONAL SUMMARY

Front-end Developer in training pursuing a degree in Software Engineering, with experience developing web applications using JavaScript, React, Firebase, and REST API integration.

Experience in academic and freelance projects involving user authentication, cloud databases, API consumption, and application deployment.

Strong interest in automation, Artificial Intelligence applied to development, and modern software engineering, with participation in hackathons and innovation initiatives.

TECHNICAL SKILLS

Programming Languages

HTML, CSS, JavaScript, Java, Python, C++

Front-end / Mobile

React, React Native, Tailwind CSS, responsive interface development

Back-end / APIs

Node.js, Strapi, REST API development and consumption, API integration, JSON

Databases / Cloud

Firebase (Firestore), Firebase Authentication, Firebase Hosting, fundamentals of SQL and data modeling

Tools

Git, GitHub, VS Code, Docker, Postman, npm, Vercel, Figma, WordPress, Expo

Automation and Integration

n8n, automated workflows and API integrations

EXPERIENCE AND PROJECTS

Academic Sprint – Hplus (2025)

Academic project developed over one semester focused on prototyping and developing web interfaces for the Hplus website. Worked in a team using Figma for design and prototyping, and HTML, CSS, and JavaScript for interface implementation, following agile practices.

"Leitura para Todos" Project (2025)

Web application developed as a charitable project to organize a digital book collection. Built using HTML, CSS, and JavaScript, with Firebase for authentication and database, integration with the Google Books API, and cloud deployment.

EDUCATION

Bachelor's Degree in Software Engineering
Instituto Brasileiro de Ensino, Desenvolvimento e Pesquisa (IDP)
5th Semester | Expected Graduation: 2027

CERTIFICATIONS

Courses in HTML, CSS, JavaScript, React, React Native, Node.js, Strapi, WordPress, Git/GitHub, and mobile development with Expo.

(Certificates available in the portfolio.)

ACTIVITIES & AFFILIATIONS

Member of IEEE (Institute of Electrical and Electronics Engineers), with strong interest in technological innovation and continuous development in software engineering.

DIFFERENTIALS

Continuous learning mindset and fast adaptation to new technologies. Strong communication, teamwork, and organizational skills. Experience with Agile methodology (Scrum) in academic projects, working with sprints and incremental deliveries.
